

Dear Madam, Dear Sir,

The production AND Training websites of TRACES NT are now available. The certificate for the Certificate of Inspection for the products of organic origin can be found on the website. Before you can access it, you need to log in and register as a user. The registration process to connect to TRACES NT and use COI is twofold:

1) First you need to register yourself on the EU Login page

This is a mandatory security layer.

Please note: in case you already have an ECAS access, it is not necessary to redo the procedure, you can go directly to step 2.

When you click on: <https://webgate.ec.europa.eu/tracesnt/login> (for the Production version) or <https://webgate.training.ec.europa.eu/tracesnt> (for the Training page) You access the TRACES welcome page:

Please click on the link “sign up for TRACES”

You now access the EU Login registration screen.

Complete all form fields: Username, First name, Last name, E-mail (you need to repeat the e-mail address in the next field to confirm the address), E-mail language and Code.

Please keep in mind that the data you choose in the screen above will be the data that appears in a certificate in TRACES NT, when you sign it. As the certificate in TRACES NT has a legal value, it is important that you open the EU Login account in the name of a REAL P, NOT your border control post, operator's name or control body!

For the E-mail Address: You are strongly advised to choose your individual professional email address which must be used to login to TNT-COI.

After completing all the fields, click on the "Create an account" button.

Once you have sent the request, an email will automatically be sent to you with a link to set your password. You have 90 min to click on the link (it will expire when the 90 minutes have passed).

If you do not receive this automatic email, you can find help on this page:

<https://webgate.ec.europa.eu/cas/contact.html>

Please note that during the testing phase your request will not be automatically submitted to TRACES, you need to continue with the second step here below, once you have access to ECAS.

2) Second step, register in TRACES NT:

Please note: you need to follow step 2 on TRACES NT Production and on Training. When you request a role on one this is not automatically transferred to the other.

Return to the homepage of TRACES NT Production or Training (see links above)

Then click on the green button “Login into TRACES”, you will be redirected to the EU Login access. To log in you use the email address you selected when creating the EU Login Account:

You are now redirected to the TRACES NT welcome page. Where you will find links to EU Login where you can change your EU Login credentials if need be or reset your password.

But more importantly, you need to select your role in TRACES. **Please note that each individual can only take one kind of role.**

Please click on the button 'Operator'. You can only be Operator (Importer, first consignee), Organic Control Body (or Control Authority) **OR** Authority (Border Control Post or Central Competent Authority).

But within your role, you can take several posts. You can for example work for two or more different operators:

Request authorisation

You currently do not have any role allowing you to access the application.

Please select the type of organisation you're requesting access for:

Operator
Economic operators such as *particular businesses, stores, non-profit organisations...*

Organic Control Body
Control Bodies listed in Annex III and Annex IV of Commission Regulation (EC) No 1235

Authority
Competent authority such *Customs offices, Veterinary authorities, central competent authorities, phytosanitary authorities...*
